Jakarta, Indonesia

I'm a full-stack developer with 2+ years of experience in JavaScript, Laravel, and CodeIgniter, React.js, specializing in optimizing application flow and database architecture. Passionate about ensuring software quality through manual testing, I bridge the gap between technical solutions and business needs. Currently transitioning into Systems Analysis roles, I leverage my technical expertise and problem-solving skills to align solutions with business goals. I'm focused on delivering efficient, user-centric systems that enhance project outcomes and stakeholder satisfaction.

Work Experiences

PT. Wijaya Karya Beton Tbk. - Jakarta Timur, Indonesia

Nov 2023 - Present

Fullstack Web Developer (Fulltime)

- Developed and enhanced website features for internal company applications, including procurement, ERP, and management systems, using CodeIgniter and Laravel.
- Resolved bugs and optimized the functionality of existing systems to improve performance.
- Conducted query analysis using Oracle and MySQL during the application development process, utilizing DBeaver for database management.
- Created APIs and tested using Postman to ensure reliability and adherence to requirements.
- Successfully completed a total of 310 tasks within the target timeframe, demonstrating efficiency and commitment to project goals.

Lembaga Pengembangan Komputer Gunadarma (LePKom) - Depok, Indonesia

Oct 2020 - Aug 2022

Tutor/Asisten (Fulltime)

- Provided support to students in learning MySQL by covering essential topics such as DML, DDL, and DCL.
- Guided students in applying theoretical concepts through practical projects.
- Assisted students in creating and managing database dumps using Oracle, PHPMyAdmin.
- Evaluated student assignments to ensure understanding of the material.
- Monitored and encouraged continuous skill development among students.

PT. Ruang Raya Indonesia (Ruangguru) - Jakarta, Indonesia

Feb 2022 - Jul 2022

Frontend Engineer (Apprenticeship)

- Built a responsive learning website using React JS and Chakra UI to deliver a seamless user experience.
- Managed tasks and collaboration effectively by utilizing Jira throughout the project lifecycle.
- Ensured efficient development workflows through GIT for version control and team collaboration (FE&BE).
- Deployed the project successfully on Vercel, optimizing for performance and scalability.
- Successfully completed my final project as a frontend developer within 3 months, delivering it on time and in accordance with the project timeline.
- Successfully achieved a GPA of 3.90 after completing 20 course credits.

PT. Impact Byte Teknologi Edukasi - Jakarta, Indonesia

Aug 2021 - Dec 2021

UI/UX Designer (Internship)

- Collaborated with the team by implementing Design Thinking principles throughout the project lifecycle.
- Facilitated brainstorming sessions to generate innovative ideas and solutions.
- Created low-fidelity wireframes and prototypes to visualize and iterate on design concepts.
- Focused on delivering optimized and user-centered solutions.
- Successfully achieved a score of 7 (passed) in the stimulus user research assessment, using the In-Depth Interview method.

Education

Universitas Gunadarma - Depok, Indonesia

Aug 2019 - Aug 2023

Bachelor Degree Informatics, 3.94/4.00

- Academic Most Outstanding Student in Informatic Engineering year 2020-2023, 3rd - 7rd Semester.
- Have experience as a Product Manager in a final college assignment (creating complete FnDS documents).
- Successfully defended the thesis titled "Implementation of Agile Development Scrum and Payment Gateway Integration with Midtrans and Raja Ongkir for the Online Spare Parts Store SPBU Jaka."

Skills & Abilities

- Web Development : Laravel, Codeigniter, React Js, PHP

- Database : SQL, Oracle, Dbeaver
- Tools Deployment : Filezilla, Github
- Documentation : UML, Draw.io, FigJam, Figma, Microsoft Office
- Tools Project Management : Jira, Teamgantt
- Language : Bahasa Indonesia, English
- Softskill : Problem Solving, Teamwork, Optimism

Ceritification & Projects

- **Modul Taken**  (2024): Fundamental SQL Using SELECT Statement
- **Modules Taken**  (2024): Fundamental SQL Using INNER JOIN and UNION
- **Modules Taken**  (2024): Fundamental SQL Using FUNCTION and GROUP BY
- **Modules Taken**  (2024): Fundamental SQL Group By and Having
- **Modul Taken**  (2023): Vocational School Graduate Academy (VSGA) Junior Web Developer program
- **Modul Taken**  (2022): Front End Engineering Bootcamp Ruangguru
- **Modules Taken**  (2022): Free Code Camp (Responsive Web Design)
- **Modul Taken**  (2021): Oracle Beginner
- **Modul Taken**  (2020): Fundamental DBMS
